RESULTS are considered SAFE and BELOW detectible Limits for each of the series of testing:

HEAVY METALS (Arsenic, Mercury, Cadmium, Lead) are found in our daily environment especially through ground soil. Minerals also can carry these metals. When digested in large volumes a pet can become very sick.

The result(s) issued on this report only reflect the analysis of the sample(s) submitted.

Our reports and letters are for the exclusive and confidential use of our clients and may not be reproduced in whole or in part, nor may any reference be made to the work, the results, or the company in any advertising, news release, or other public announcements without obtaining our prior written authorization.
