REPORT OF ANALYSIS  
For: PURELUXE INC  
PET FOOD ANALYSIS  
DRY PET FOOD

| Analysis  | Level Found | Units | Reporting | Method                         | Analyst-<br>Date | Verified-<br>Date |
|---|-------------|-------|-----------|--------------------------------|------------------|-------------------|
|   | As Received |       | Limit     |                                |                  |                   |
| Sample ID: COMPOSITE CAT    Lab Number: 13----- |             |       |           |                                |                  |                   |
| Taurine   | 1920        | ppm   | 0.01      | Taurine Analysis by LC/MS/MS * | ljk9-2018/10/01  | tjp8-2018/10/01   |

In light of the DCM report we want our customers to know that our ELITE level of nutrition has always contained higher levels of Taurine. This amino acid is essential for excellent heart health. It is stated use above 500ppm is a good insurance policy for heart health. As you can see Purelux is testing at 1920ppm

For questions please contact:
